

Gorgeous

Take me by the hand
Guide me through the world
Or leave me where I am
But keep an eye on me

And the wind will stop
And no rain will fall
That took years to understand

And the biggest wave and the tornado
By your side / in your wake
A thousand miles away
Cause
you're so fine
You're so kind

You're so gorgeous
You save me from tears
When you're around
I'm glad I have no fears

Touch with your point of view
Tell me what you want me do do
The straightest way is the best to you
I need a friend that's true
