

## You Lose at Last

You are the man in black  
You have a scar in your face  
You never come alone

You fight with every trick  
You beat woman with a sneer  
You act without conscience  
You kill only for pleasure

And everyone lives in fear of you :|  
But you lose at last

And your hands are full of blood  
You never deal with Justice  
You attack innocents with bombs

You turn the prince into a frog  
You kill lovers with a smile  
Late at night you rob a train  
You threaten the world with the nuclear bomb

And everyone lives in fear of you :|  
But you lose at last

You take a hostage in a bank  
You kidnap a baby  
You rape a schoolboy on his way home

You torture your prisoner  
You put poison into a drink  
You attack other countries  
You laugh about him whimpering
