

## **TRIED TO CALL**

**it's the morning after you didn't sleep at home  
it's the morning after I didn't sleep at night  
is there one thing you won't say  
is there one thing I can't bear  
just a moment but all's been changed you say  
but you did it  
and you**

**and you say you tried to call  
but something happened to you**

**it's the morning after it all  
and you try and try so hard  
to explain what's going on  
but you can't find the words  
is there one thing you won't say  
is there one thing I can't bear  
just a moment but all's been changed you say  
but you did it,  
and you**

**and you say you tried to call  
but something happened to you**
